Be a part of something truly special!

George Mark Children's House (GMCH) is seeking highly independent, self-directed Registered Nurses (RN) to provide life-affirming comfort care for children and their families. We pride ourselves on creating a joyful environment and a genuine sense of normalcy for children with life limiting illnesses. GMCH provides a round-the-clock compassionate and holistic environment for patients, nurses, and families alike. Palliative care at GMCH consists of respite, transitional, and end of life care. On any given day, GMCH's clinical staff provides around-the-clock, comprehensive, quality medical care through bedside nursing, parent teaching, and complex assessments, while engaging in play, art, music therapy, pet therapy, and palliative aquatics. The warmth of the House mirrors a home away from home through each themed patient room, the activity room, art room, hydrotherapy spa, lush gardens surrounded by nature, a sanctuary, a café serving delicious food, the fountain, and even a sensory room. Annual events such as Prom, Pumpkin Day, and the Family Picnic bring our families together to join in celebrating our amazing community of special needs children. Photographs and mementos of GMCH families and patients express warmth, love, and a sense of family throughout the property.

Role of the RN

GMCH offers the unique opportunity to obtain all-encompassing exposure to advanced clinical skills while highlighting the different correlating developmental stages of children and their needs. We strive to achieve the best quality of life for each patient and family through therapeutic interventions, empathy, and continued support. A GMCH floor nurse is a strong asset to the interdisciplinary team, consisting of a Child Life Specialist, Medical Social Worker, Palliative Care Physician, Case Manager, Volunteer Coordinator, Clinical Psychologist, and Nursing Manager. The team works together to tailor each patient's plan of care to best suit each child, family, and particular situation. Unlike busy hospitals and sub-acute care facilities, GMCH allows nurses the invaluable opportunity to spend quality time with each patient and family in order to develop a rapport and meet medical and psychosocial needs. We prioritize closely collaborating with each family and partnering as an interdisciplinary team to provide the best quality of life for each and every GMCH child. We give children and families the chance to spend time together and create memories outside the rigid constraints of a hospital setting.

A Look Inside GMCH

Qualifications

We are seeking California licensed RN candidates for per diem positions for day and/or evening shifts who are able to commit to a minimum of four 8 hour shifts per month, two of which must be weekend shifts. The ideal candidate will preferably have at least two years or more of pediatric and/or palliative (end-of-life) care experience and have the ability to work autonomously as well as the ability to work as part of a team. This individual must be passionate about providing high quality, holistic care and wholeheartedly representing the mission of GMCH. Join our team and make a difference in an underserved pediatric population. Learn how these children and their families teach us so much about life, and living, and unconditional joy…no matter the number of days, months, or years we are granted.
